(480) 235-6188

## **COMPANY OVERVIEW:**

Arizona-based Leap Innovation is a quality management consultancy targeting small to medium-sized companies nationwide. It provides end-to-end solutions that significantly improve quality systems and product innovation.

## **OVERVIEW OF SERVICES:**

Leap Innovation provides expertise and solutions to quality management and product development challenges:

- Implementing quality systems and processes
- Achieving quality management certification
- Driving innovation and continuous improvement
- Getting products to market on time

In addition to quality consultations and assessments, Leap Innovation offers a variety of workshops that focus on hands-on experiential learning.

## **PRINCIPAL:**

Prior to founding Leap Innovation in 2007, Hardenbrook spent nearly 20 years at Intel Corporation, holding management and individual contributor positions in the quality, manufacturing, operations and human resources departments. Hardenbrook serves on the board of the Product Development and Management Association (PDMA) as vice president of association and membership development and is the book review editor for PDMA's Journal of Product Innovation Management. He is a member of IEEE and ASQ. He can be reached at [don@leapinnovation.com](mailto:don@leapinnovation.com).
